Claim 22 is rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

The terminology "R1 or R4 methyl", "R1 acetyl, COOH" is not disclosed or suggested by the specification, as originally filed.

Applicant's arguments filed July 25, 2005 and August 15, 2005 have been considered but have not been found persuasive.

Applicant contends that support for R1 and R4 representing methyl is shown on pages 27-18 of the specification and Figure 1. However, none of the specific compounds disclosed have methyl group at the 1 or 6 positions.
